I cannot decide how far to go and how far there is
'Cause no one knows, the distance
Sitting out here in the stale air
Watching time fall with the sky it's got me thinking
How I'm so far from you
And there's no way at getting back
I feel you -
The mystery and misery returns
Just like seeing you 'round this cold night burns

And I'm talking to myself
And answering my own questions that you'd know
I'm falling out of sync in light
Now you're gone and it's alright
I watch the sky fall into the summer night

Chorus:
But something
Speaks in my ear
It's whispering "you threw away a year"
Alone and in your room
Septembers coming soon

There was a time there was a great time
But I don't know where it goes -
I'd like to say but I
I just don't know -
Stale air I was breathing and oh yeah,
Slipping into you
Still I feel myself slipping into you

(Chorus)

The wasted paragraphs
And all the words that you would say
Cause I am so far from you
A little farther everyday
But...

(Chorus)

I cannot decide how far to go
And how far there is cause no one knows
Cannot decide how far to go
Or how far there is
Cause no one knows
No one knows

No one knows
