I will be your paper pioneer  
If you'd be my willing volunteer  
At least you've got the face to save  
Cross your fingers 'til it's payday  
If I try my best to sound sincere  
Will you marry me within the year?  
If you love and honor I'll obey

To pave the way until it's payday  
On our own  
We've got enough to go on  
But together we'll have to work to live on  
Hold the landlord off at bay  
Stiff the piper 'til it's payday

Armed with our wax winged Achilles heels  
Tales of bravely useless high ideals

As long as we keep pride at bay

Any day will soon be payday  
On our own  
We've got enough to go on  
But together we'll have to work to live on  
Hold the landlord off at bay  
Stiff the piper 'til it's payday

We know  
We haven't got too far to go  
So we must try  
Got to try to keep our pride in tow  
Hold the landlord off at bay  
Stiff the piper 'til it's payday  
I will be your paper pioneer  
If you'd only stay 'til payday
