I've seen it in movies and TV shows
wrapped up with roses and pretty bows
but that's just not the way my story goes
I get the love 'em and leave 'em kinds
The ones that can never make up their minds
But i know that next time
I'm gonna get my ever after
There's gonna be ups and downs
Twists and turns
maybe a crash and burn
When I find the one I'm gonna let him know what I've
learned
This is my definition of love

It's not perfect, but it's never giving up
And sometimes we're gonna fight
Cause we both like to be right
But love is unconditional
and that's my definition of love

Tired of making the same mistakes
Find the ones that don't wanna stay
We hit a bump in the road they just split like an
earthquake
There's gonna be highs and lows
Good and bad, and there's nothing wrong with that
But you gotta stick it out and dig your heels in to make
it last

It's not perfect, but it's never giving up
and sometimes we are gonna fight
cause we both like to be right
but i am finally learning to say that I'm sorry and
swallow my pride
this is my definition of love
oh, we gotta stick together no matter what
and we're gonna make mistakes
and hearts are gonna break
but love is unconditional
and that's my definition of love

never gonna leave you, love
its never gonna diss you love

When you're falling down when you make a big mistake
When you wake up in the morning
With nothing, there's love
the kinds that is
gonna kiss you, love
The kinds gonna miss you
that's my definition of this thing called love
Yeah

It's not perfect, but it;s never giving up
and sometimes we are gonna fight
cause we both like to be right
but i am finally learning to say that I'm sorry and
swallow my pride
this is my definition of love

oh, we gotta stick together no matter what
and we're gonna make mistakes
and hearts are gonna break
but love is unconditional
and that's my definition of love

Oh, love (never giving up)
My definition of love
