You've got your friends and your places. That's where  
you feel the safest  
Boy you don't see  
I'm standing here in the shadows  
Learning how to let love go  
When it has to be free  
You've got your castles in the clouds  
You don't need me now.

But if, you should ever fall, think you've lost it all  
I will be there for you  
And if you should lose your faith  
The whole world turns away from you, baby  
One thing's still true  
I will be there for you.

I read the news in the paper, all the fear and the hatred  
Baby, who can you trust? But I see the truth through the  
madness  
Here's my love if you'll have it, but if you don't want  
that much  
Go as far as you can go, as long as you know

But if, you should ever fall, think you've lost it all  
I will be there for you  
And if you should lose your faith  
The whole world turns away from you, baby  
One thing's still true  
I will be there for you.

And if the time should come  
When all you depend upon is gone  
Just look around and I'll be there

But if, you should ever fall, think you've lost it all  
I will be there for you  
And if you should lose your faith  
The whole world turns away from you, baby  
One thing's still true (I will be there, 2x)  
I will be there for you.
