Here he comes down the hall
Feel like a flower on the wall
One you don't see at all
Will he see right through me?
Working on my best hello
Will he just turn and go
And walk on, walk on, walk on?
Maybe he'll stop and smile
We'll talk for a little while
Maybe that's not his style
Maybe he's too shy to
Look me in the eye
I'll just keep standing by
I don't mind, don't mind, don't mind

Now we're standing face to face
Nothing between us but empty space
The rest of the world just melts away
Like a snowflake on a sunny day
And we're falling
Yeah we're falling

Love can give you wings
Make you do anything
Funny how your wildest dreams
Can wake you up to
Finding what you really want
Getting it before it's gone
It's you that I want, I want

Now we're standing face to face
Nothing between us but empty space
The rest of the world just melts away
Like a snowflake on a sunny day
And we're falling
Yeah we're falling

They say no two are alike
But somehow we fit just right
So maybe tonight
We'll be falling
Falling

Now we're standing face to face
Nothing between us but empty space
The rest of the world just melts away
Like a snowflake on a sunny day
And we're falling
Yeah we're falling
