Tell me,  
Baby is it yes or no  
You've got a face that just don't show what's going on  
inside  
Tell me,  
I swear I'll take it on the chin  
Don't sugar-coat where I fit in  
What's going on?  
Inside you there's a room, a room with a door  
I finally come knocking, and I've been here before  
Oh I've got this love for you but what is it for?  
If you can hear me, than tell me  
Last chance, hold me in your arms and say  
if you want this love to walk away then I'll say goodbye  
Inside you there's a room, a room with a door  
I finally come knocking and I've been here before  
Ooh I've got this love for you but what is it for?  
If you can hear me  
Then I'll make it easy, I'm counting to three  
Am I something you want, or someone you need?  
Chorus: Tell me that you want me, tell me that you love  
me  
Tell me that you want me, tell me that you love me  
Tell me that you want me, tell me that you love me  
Tell me that you want me, tell me that you love me  
Tell me,  
darling won't you tell me  
Tell me that you want me, tell me that you love me  
I'm begging you to tell me  
Tell me and I'll say goodbye
