## "End Of Time"

I have a dream to start over again  
In silence bleeding - is the heartbroken man  
Turning the pages I'm longing for grace  
I'm fading picture of a human in rage

Out in the day I am finding my way  
People are dreaming, they've got so much to say  
Darker and cold in the core of my soul  
I'm fire bleeding burning out of control

Tell me who we are  
Coming from the far  
See the distant star  
In a flying car  
It's a future world  
Go and get your girl thumbs up  
Reach for the sky to the end of time

Sun's going black, It's the eclipse of my heart  
My wounds are open from the life torn apart  
Keep up the pace in this digital race  
This time machine has got me trapped in the haze

And the wind must blow  
As the rivers flow  
Will we ever know  
If the truth will show  
In another world  
Just a boy and girl  
Holding on to the end of the line  
I hear footsteps in the hall, my friend  
But no one's there  
I look again  
Feeling ice-cold as I walk the stairs  
Oh, suddenly she's there  
I see her floating through the air

We all fade to begin again thumbs up  
In silence dreaming everyone woman and man

Tell me what she did  
Tell me who she was

Show me how she loved  
Here before  
Did she run around  
With the boys in town  
Living fast at the end of the line  
Of time

Oh,  
I'm like a jet thumbs up  
I'm like the speed  
Coming faster  
I'm holding on to the end of time  
Of time
