Heads above the water  
But too close to the slaughter  
Life on the run  
No justice done  
Time for hell and thunder  
The mind can pull you under  
Hauling you back  
Into the black  
Moving with the dark  
will bring you pain inside the heart  
And burn you deeper like an arrow made of sun  
Rolling with the wheel  
It makes you turn the way you feel  
From to joy to cry  
You've got to live and let fly - yeah  
No sign of the morning coming  
You were lost before the warning  
Came here to shock  
Children of rock  
Don't need a new religion  
The past is not forgiven - no  
Inside the night  
We've found the light  
Living in the cold  
Will freeze the chain around your soul  
and leave you stranded on this desolation boulevard  
Before we end up old  
We dream of streets made of gold  
And then we die  
So I say live and let fly - yeah  
I was born here to deliver  
I'm pouring like a river  
The strain is back  
Coming down the track  
Get on the roller-coaster  
Your faces on the poster  
No need to blush  
Just feel the rush  
Baby it's a sacrifice  
But you will have to roll the dice  
And pay the price for things you've never done  
Life inside this old machine

Is blinding your forgotten dreams  
They blind your soul and steal you from the starlight  
The tower of the wall  
Must rise again after the fall  
And into the sky  
Live and let fly - yeah  
Got to live  
Before you die  
Live and let fly
