Trade over land or by sea
We got too much money
But still there are people who need
Researching technology
Seemingly improving our ways
And our economy

I'll fly my rockship to a future world
People come, people come
Join my revolution for a brand new birth
Peace will come, peace will come

My vision eyes
They have cried me an ocean
Just the moon and I
Pale faces in the night
And I guess we've both seen some trouble

Treasures of gold left us blinded
Religion wars in the name of greed... Ohh
All around there is chaos and madness
So hard to focus with these
Diagnoses in my head

I'll fly my rockship to a future world
People come, the dream is on

Join my revolution for a brand new birth
People will come, peace will come

My vision eyes
They have cried me an ocean
Just the moon and I
Pale faces in the night
And I've still got some trouble... Oh yeahhh

I'll fly my rockship to a future world
People come, the dream is on
Join my revolution for a brand new birth
Peace will come, peace will come

We bring such a heavy load so full of fire

With our music we rise to be higher
I'm a dancer on the world arena
And I give you the message of love

My vision eyes
They've cried me an ocean... Oh yeahhh
Just the moon and I
Pale faces in the night
And I guess we still got some trouble
