Angela, do you really love me
Or is this a game you play
Can I believe the tender words you say
Or is this, my final day with you, Angela

Do you remember that night you told me that you loved
me so
You held me tight as if you'd never let me go.
What do I know of you, Angela.

Angela, the world was made for you and me.
A love like ours was meant to be.
We're strong together can't you see.

So, if you love me
I promise I will never, never let you go.
I'll think back to that night
You said you loved me so.
Or was it just for show, Angela.

(Tell me Mama)

Angela, the world was made for you and me.
A love like ours was meant to be.
We're strong together can't you see.

So, if you love me
I promise I will never never let you go.
I'll think back to that night
You said you loved me so.
Or was it just for show, Angela.

Angela, I need you baby,
I need you by my side,
Angie baby oh oh baby,
I said Angela, why did you leave me,
Angie love me, hmmm
Oh, I said Angela, Angela,
Angela, Angela, Angela.
