I love you

You love him

There's nothing I can do

It was in my destiny to fall for you.

You say why

Don't I try

To find someone new

It was in my destiny to fall for you.

And There's ain't a thing I can do about it

You know I can't live without it

All I can say is hey, hey, hey, woman!

You say you

Could never give neater

Love that's true

It was in my destiny to fall for you

To fall for you,

Baby to fall for you.
