Sitting here waiting for tomorrow  
All because of yesterday  
I wish I had all the answers  
For all the things you had to say

I wanna come and change your mind girl  
No more lies and no more games

I never thought of missing you  
I never thought I needed you  
before you left tonight  
But since I can't be kissing you  
and since I won't be holding you, will it be alright?  
and how could you just say we're through after all this  
time?  
I'm standing here with open arms...the thought just  
crossed my mind  
Where is your heart tonight?

Feel a little loneliness and sorrow  
I only have myself to blame  
Had a good girl then I lost her  
I start to cry and feel ashamed

I wanna come and change your mind girl  
No more lies and no more games

I never thought of missing you  
I never thought I needed you  
before you left tonight  
But since I can't be kissing you  
and since I won't be holding you, will it be alright?  
and how could you just say we're through after all this  
time?  
I'm standing here with open arms...the thought just  
crossed my mind  
Where is your heart tonight?

I'll never understand whatever happened to us  
(whatever happened to us?)  
Love is like some other sun always shining above

Then all the rain came crashing down  
and I can't turn this around...without you

I never thought of missing you  
I never thought I needed you  
before you left tonight  
But since I can't be kissing you  
and since I won't be holding you, will it be alright?  
and how could you just say we're through after all this  
time?  
I'm standing here with open arms...the thought just  
crossed my mind  
Where is your heart tonight?
