Now the silence is descending  
Now our loneliness is ending  
Now where there were two  
There will be one

Now the shadow's growing longer  
Now the magic's growing stronger  
Now where there were two  
There will be one

And there's only one heart  
Beating now  
Only one gaze meeting now  
Only one moon in the sky

I'm beginning to be very sure  
Just what I've been looking for  
I see it shining in your eyes  
Now we are two looking at one

Now the light of love found us  
Now there's magic all around us  
Now where there were two  
There's only one

And there's only one heart  
Beating now  
Only one gaze meeting now  
Only one moon in the sky

I'm beginning to be very sure  
Just what I've been looking for  
I see it shining in your eyes  
Now we are two looking at one
