Too blind to know your best  
Hurrying through the forks without regrets  
Different now, every step feels like a mile  
All the lights seem to flash and pass you by

So how's it gonna be  
When it all comes down, you're cycling trivialities

I don't know which way to turn  
Every trifle becoming big concerns  
All this time you were chasing dreams  
Without knowing what you wanted them to mean

So how's it gonna be  
When it all comes down, you're cycling trivialities  
So how's it gonna be  
When it all comes down, you're cycling trivialities

Who cares in a hundred years from now  
All your small steps, all your shitty clouds  
Who cares in a hundred years from now  
Who'll remember all the players  
Who'll remember all the clowns

So how's it gonna be  
When it all comes down, you're cycling trivialities  
So what does this really mean  
When it all comes down, you're cycling trivialities

You're cycling trivialities  
You're cycling trivialities  
You're cycling trivialities  
You're cycling trivialities

You're cycling trivialities  
You're cycling trivialities  
You're cycling trivialities
