Another ending on your story  
Now I'll have to speak to you from a distance  
'Cause I tend to forget my duty  
When I get too close to your resistance

Say what you have to say  
I know it isn't you anyway  
Use all the colors that you want to  
I'll use black, I'll use black

I tend to forget my duty  
But this time I'll use black

I tend to forget my duty  
But this time I'll use black  
I'll use black

This time, I'll use black  
This time, I'll use black  
I'll use black, I'll use black
