I see problems down the line
I know that I'm right

There was a dirt upon your hands
Doing the same mistake twice
Making the same mistake twice

Come on over, don't be so caught up
It's not about compromising

I see problems down the line
I know that I'm right
I see darkness down the line
I know it's hard to fight

But there was a dirt upon your hands
You're doing the same mistake twice
Making the same mistake twice

Come on over, don't be so caught up
It's all about compromising

I see problems down the line
I know that I'm right

Don't let the darkness eat you up
Don't let the darkness eat you up
Don't let the darkness eat you up
Don't let the darkness eat you up

Don't let the darkness eat you up
Don't let the darkness eat you up
Don't let the darkness eat you up
Don't let the darkness eat you up
