The music of love that sings forever is on your radio
Romancing you and me here and wherever you may be

Love's everywhere in the music that we played
At anytime of day, love music authority

And no matter how you feel, with the smiles or with the
tears
Our romance will touch you where it matters, all
throughout the years

So listen to love and all it's music let your heart move
with a dance
Where the love comes every minute, on your Radio
Romance

You can wish upon a star now, 'cause love is not too far
now,
Romance is on Double-R now, Radio Romance

Love's everywhere in the music that we played
At anytime of day, love music authority

And no matter how you feel, with the smiles or with the
tears
Our romance will touch you where it matters, all
throughout the years

So listen to love and all it's music let your heart move

Where the love comes every minute, on your Radio
