Chorus:

"Puerto Rico" is where she come from
she asked me do i love her that recored song
by si si si si bunoes bonita.
you wanna ever be mine stay on hip hop
but tonight where gonna reggaton the whole club.

I see you party in the streets,
see my myself climbing in the
seats the hood is like heaven now remanising
them days when i thought about throwing on a towl
the night before the month was like christmas
this kid keep huslting me sometimes i felt
like i couldent breath i would have to sit back
and play nieve and it hurt watching my mum struggle
trust me when you broke and hungry its hard
to stay out of trouble its a servial of the fittest
whatever it took to bring money to the table
i did it even my girl lost faith in me
left me out trapped in this negative energy
listening deeply but i have to keep on
moving i refuse to let this darkness, cath up to me

chorus:

"Puerto Rico" is where she come from
she asked me do i love her that recored song
by si si si bunoes bonita.
you wanna ever be mine stay on hip hop
but tonight where gonna reggaton the whole club.

Dowled up but it was just a distaction
even the streets never gave us a little time to relax
writting my rhymes to a vibe scap in the corner

in the ghetto get this paper take this music
to a whole new level trouble found me now
i found myself in puerto rico spy got hot
i had to roll living with my paps
i really dont no missing my lady try not to tell it show
her new man telling her i would probley never blow
wanted to tell to the flow i know robbin it stay in the
zone

and move hard or go home open my eyes now
i see myself on the rock miens bonitas
everywhere i wanna ride

chorus:

"Puerto Rico" is where she come from
she asked me do i love her that recored song
by si si si bunoes bonita.
you wanna ever be mine stay on hip hop
but tonight where gonna reggaton the whole club.

I never thought i would see the day
that i will be getting money making music
so these hatters wouldnt take nothing off me
when the chicks wouldnt holla i just

cap, watch right across the room
thinking they will be dancing to me soon so

so hard that im in Puerto Rico Puerto Rico ..

chorus:

"Puerto Rico" is where she come from
she asked me do i love her that recored song
by si si si bunoes bonita.
you wanna ever be mine stay on hip hop
but tonight where gonna reggaton the whole club.

All you gotta do is listen..
she looks fine just wistle at her
see the cops coming then just miss at her
