They're killing the kids in our schools  
Something's wrong  
The man on the news is confused  
Something's wrong  
The talking heads will argue  
The philosophers will yack  
And then the politicians take our questions  
But give nothing back

Because the answer is not turning your leaf  
The answer is not some new world relief  
The answer is easy for those who are serious  
Answer is... Jesus Period

Profanity reigns in the minds of our young

Something's wrong  
We've got babies having babies  
Their conscious is numb  
Something's wrong  
We've got suicides and homicides  
And 1-900 lines  
And then we find our pills and drugs and pills  
And can't get satisfied

The answer is  
The answer is  
Jesus Period

If you're searching for solutions to define the  
Right and wrong  
You better sneak a look into the book  
That's been here all along
