Growing in Jesus
Ain't always easy
Because there's a price to be paid
We're constantly dying
To our old nature
While new foundations are laid

While we are building our faith
Sufficiently he gives his grace

I'm learning dependency
Only so I can be healed
As I see his face

And over and over I'm learning
To put my trust in you
Over and over I'm learning
What child like faith can do
Over and over it's easy to see
Just how you're spirit is working in me
As I grow older I'm learning over
To just believe

Because I am bearing the name of Christian
I'm conscious of what people see
The only bible they may every read
Is what they will read through me
So Lord do you work
Here I am

Oh use my oh God all you can
I'll go where you lead me
And grow as you feed
While holding so tightly your hand

And over and over I'm learning
To put my trust in you
Over and over I'm learning
What child like faith can do
Over and over it's easy to see
Just how you're spirit is working in me
As I grow older I'm learning over

To just believe

As I grow older I'm still learning over

To just believe

To just believe
