The gods can hear me sing  
From inside the basement  
It's good to be King  
King of the pavement

Our friendship is pure  
Like lights inside us pouring  
I knew you before  
But never in the morning

It's good to be King  
King of the pavement  
But you can't kiss my ring  
Down in the basement

Our spirits will soar  
My soul needs a cleansing  
I want to explore  
Being forgiven

We lay down at night  
In darkness together  
The moon and you fight  
To capture forever

The gods can hear me sing  
From inside my basement  
It's good to be King  
King of the pavement
