People are hypnotized
Lost in the city of the damned
Dreaming rivers of deceit and lies
As the shake one another's hand

People fill you with poison tongues
Slithering snakes in the world of sorry sons
Loose lips sink ships but you know you're not the only
one
On the bottom of the ocean is the story of what we've
become

So don't believe them

Look into the sky
Look into the sky
Look into the sky
And ask for him

People fill you with their lies
Try to notify your next of kin
See the lost children in their eyes
Before you decide if you want to be like them

So don't believe them

Look into the sky
Look into the sky
Look into the sky
And ask for him
Look into the sky
Look into the sky
Look into the sky
And ask for him

He's your real friend

People will fill you with their noise
To try to make you feel as bad as them
Bribe you with silk and expensive toys
On the rooftops of hate and sin

So don't believe them

Look into the sky
Look into the sky
Look into the sky
And ask for him

Look into the sky
Look into the sky
Look into the sky
And ask for him

He's your real friend
