It doesn't matter what you think
I won't care
'Cuz I'm over you now
You never know what to do
You never know what you mean
You cheated on me
I can see it in your eyes
You were never good for me
And I know now
That you're not gonna change
I'm over you now
Never say it again
I'm over you now
I don't want you anymore
Don't need ya either
Just leave me alone
Doesn't matter what you think
I won't care
Just leave me alone
You never know what you want
And you never say what you mean
You're starting to go insane
Every time that you stare at me
You only hear part of what I say
You're always showing up too late
I know what I did
It was the right thing to do
Used to be good memories
Now it disappeared
I wanna cry but never mind
You say you're better
I don't think so
I'm over you now
