Burn
the sun will burn in your eyes

come and see
a tower built for you
consumated what you thought you knew of what you
wanted
how it changed
how it turned into
gripped my enemy
the emptiness of you and me
feeling hit
she wont grow apart
when its not enough its hollowing its atomy

the slow divided
the crown of her thorns
divided

so go away
its hard to say to you
how it got this way i dont know its just too late
but underneath

subterranean
count the rainy days and watch it fade into the sun
in a sea
the third dimension flows
no time for counting gold the tidal wave is coming in

the slow divided
the crown of her thorns
divided you
embody you
come to the end
of all
one last look at you
tonight
she'll find the truth
you've fallen away from

the culture brings you down

we swam so far to drown

Chorus

you were my sun
you were my soul
