I have been around for awhile  
Following the bouncing ball  
I have seen the offers  
Hanging in the air like flies  
You can have it all

And then I see it  
Then I see my life  
Like a dog hanging  
Fifty feet above the ground  
And I feel it  
With the pain this time  
And I know now  
To find a place to turn around

But someone's got to break these problems down  
Someone's got to break these problems down

I have seen the first design  
And I have been the last to go  
I have seen the others  
Standing in the feeding lines  
When it's all they know

And then I see it  
Then I see my life  
Like a dog hanging  
Fifty feet above the ground  
And I feel it  
With the pain this time  
And I know now  
To find a place to turn around

But someone's got to break these problems down  
Someone's got to break these problems down  
Someone's got to break these problems down  
Down  
Down  
Down
