Dating

Nice to meet you what's your middle name
And what's your favorite color it's the same old
Stupid shit I've heard before
But I can make it up to you and maybe I will

Faces

Seen about a million in a day
Can't believe the one guy got away with
All the love you heard about
But I can make it up to you and maybe I will
Yeah maybe I will

Hold on

Which came first
The flower or the onion
It's the onion first
Hold on
Let me in
I can keep my head up
And I can make it happen

Dating

Nice to meet you what's your middle name
And what's your favorite poem it's the same old
Fucked up shit I've heard before
But I can make it up to you
And maybe I will
Yeah maybe I will
