

Josh Canova "Scientific"

Visit "[Scientific](#)" on MotoLyrics.com

I'm so tired of washing all these clothes
I've got this place to memory and so it goes
I'd like to have a lemon tree and wallow in the sun
But tell me when I can
Tell me when I can

This is fun this is great this is all there is
This is fun but this is just imagination kids
This is great and you can't wait to be the first in line
All the time you were only scientific

I'm so tired of missing all my friends
It's such a place of emptiness the distance sends
I'd like to have a lemon tree and wallow in the sun
But tell me when I can
Tell me when I can
