

Josh Canova "Something Real"

Visit "[Something Real](#)" on MotoLyrics.com

All of these people
People I find
Living in houses
Arms warm to the world outside
One she's a mrs.
She's got two kids in school
I keep on waiting for her to tell me
She thinks she loves me

But she's got something better
And she's got something real
How do you think that makes me feel
How do you think that makes me feel

All of these women
Women I meet
Living in one room boxes
Waiting for the perfect thing
One she's amazing
She's got too much to prove
I keep on waiting for her to tell me
She thinks she loves me

But she's got something better
And shes got something real
How do you think that makes me feel
How do you think that makes me feel
