Here we go again
Same predicament
You want a Valentine
I'm not that innocent
You get your heart bent
And hit the pavement
We never get it right
But we'll try till were ancient

Look, look at me yeah
I've had enough
Of this shit talk
Yeah let's talk about us
You don't hear me
I've had enough
Of this talk

Big love, big love
You know, I know, I need it
Big love, big love
It's all I ask of you
Big love, big love
No nothing else can beat it
Big love, big love
I know you need it too
Feels like I'm in ecstasy
When your here with me
The moment we come down
You're shying away
And the crowd goes
You can do it
But you've got nothing to say

Big love, big love

You come in from the rain
Throw words like paper planes
There's nothing left to lose
And nothing here to gain
Too many battle cries
Too many goodbyes
I'm not the enemy

We could be on the same side

Chorus

As you fade away
My heart is breaking
And I can't take it
As you fade away
My heart is breaking
And I can't take it
I can't take it

Chorus
