green eyes are you looking at me,
i've been watching you, since you came into this place,
you stood at the back of the room, time stood still
as i memorized your face,
the stars collide, they're burning bright,
you look at me for the first time,
this is right where i like to be, where i wanna be.

(chorus)

you know, tonight, i wanna dance, dance,
i wanna feel like, we could last forever,
and the city lights, you know they shine for you,
and if its alright, i wanna get you on the dancefloor,
just you and me, get together on the dancefloor,
tonight, tonight, i shine for you,
for you, i shine for you, i shine for...

green eyes staring back at me,
i can barely breathe, yet my heart is beating fast,
you move through the dancefloor, coming over,
how am i gonna make this moment last,
the stars collide, they're burning bright,
you pull me in for the first time,
this is right where i like to be, where i wanna be.

(chorus)

you know, tonight, i wanna dance, dance,
i wanna feel like, we could last forever,
and the city lights, you know they shine for you,
and if its alright, i wanna get you on the dancefloor,
just you and me, get together on the dancefloor,
tonight, tonight, i shine for you,

its just you and me, listen to the musics,
only you and me, this is right where,
this is right where i wanna be,

(chorus)

tonight, i wanna dance, dance,
i wanna feel like, we could last forever,
and the city lights, you know they shine for you
and if its alright, i wanna get you on the dancefloor,

just you and me, get together on the dancefloor,
tonight, tonight, i shine for you,
for youu, i shine for you, i shine for you,
tonight i shine for you,
i shine for you
