Relationship, since 16
Wonders if there's anything out there
She scared of searching, she scared of sinkin'
Anchored inside, she's changin her mind,
something tells her the water's just fine
Now's the time, to try

Oh, oh, oh
I know you wanna have a good time
Well i'm offering a lifelin
Drop your guy ,just for the night
He'll be alright, just don't tell him why
So come get down, drinks all around
The time is now, you have found,
your escape oh
la dee da da
escape boat
la dee da da
escape oh
you have found me now

He's a pirate, she's a stranger
But locking her out from the world's not fair
She's getting sicker, he's selfish love
She Never has fun, she's never once done
anything for anyone to frown on
hoowee? she's cryin'

Oh, oh, oh
I know you wanna have a good time
Well i'm offering a lifeline
Drop your guy ,just for the night
He'll be alright, just don't tell him why
So come get down, drinks all around
The time is now, you have found,
your escape oh
la dee da da
escape boat
la dee da da
escape oh, ha,
you have found me now

Girl, so many other fish in the sea,
but you ain't knowin
But i'm just hoping that you'll be open
to stick your little toe in
and tell me how it feels
I'll be ya captian, he'll be the hasbeen

OhhOhhhhwoah, Ohhh, Ohhh
And all you have to do
is drop your guy, just for the night
he'll be alright, just don't tell him why
So come get down, drinks all around
The time is now, you have found
your escape boat
la dee da da
escape oh
la dee da da
escape boat
you have found me now
OhhOhhhhwoah, Ohhh, Ohhh
You have found me now
