Shock wears off,
The pain sets in,
This isn't where we started,
This isn't the end,
Cause it's darker than ever,

Is anybody out there,
It's not getting better,
People needing,
Broken bleeding,
If I could find a way to you,
You know I'd find a way to you,

Just hold on,
Hope's on it's way,
Stay strong,
And everything will be okay,
If you hold on,
Cause you're not alone,
Just stay strong,
We'll make these broken hearts into a home,

Where's the light?
Cause i can't see,
I've been walking,
Through this bad, bad dream,

It's still dark here,
But there's hope near,

I know somebody's out there,
Please tell me someone's out there,
People needing,
Broken bleeding,
If I could find a way to you,
I swear I'd find a way to you,

Just hold on,
Cause hope's on its way,
Stay strong,
And everything will be okay,

If you hold on,
Cause you're not alone,
Stay strong,
We'll make these broken hearts into a home,

Love will break through
Love will break through
If we come together
If we come together

Then Hope will break through
Hope will break through
If we come together
If we come together

Just hold on,
Cause hopes on its way,
Stay strong,
And everything will be okay,

Hope will break through,
Cause you're not alone,
If we come together,
We'll make these broken hearts into a home,

Love will break through,
Oh You're not alone,
If we come together,
We'll make these broken hearts into a home,
