"Mary Go Round"

Visit "[Mary Go Round](#)" on MotoLyrics.com

Let me tell you about a girl
decked out in glitter
can shine so bright when the lights hit her
and shes wonderful
like something from a carnival

this girl so nice thats a fact
Beautiful yes ill give her that
but she'll play you like a deck of cards
not for playing queen of hearts
if she says she loves you well shes lying
this is no ride you should be riding

mary go round
you're not gonna bring this fellow down
cause i know who you are
i know you well
i know what you are all about
mary go round
around and around and around(x3)

Have you seen this girl
warning signs cover the place
pictures posted with her face
you play this game youll soon realize
a broken heart is not a prize

she seems so true
youll think shes into you
she gives kisses away too many
like her lips are cotton candy
she says she loves you well shes lying
this is no ride you should be riding

mary go round
you're not gonna bring this fellow down
cause i know who you are
i know you well
i know what you are all about
mary go round
around and around and around(x3)

well step right up bet you think you have what it takes
cmon step right up bet you its too late
step right up bet you think you have what it takes
well you dont no you dont you dont you dont do yahh

mary goes round
and round never slowed her doown
ohhh mary go round
you're not gonna bring this fellow down
cause i know who you are
i know you well i know what you are all about
mary go round
around and around and around(x3)
Mary go round
around and around and around(x3)

this wont take me out
