And honestly I found hope  
In your arms  
In your arms girl

Cause no one can replace you  
You are the rose of the weeds  
Ill never deserve you

But ill fight for my right to  
Love you  
Til the lights all fade away  
And away

Cause my hand is yours to hold  
When you get lonely  
You can call on me  
Ill be an answer to your prayer

You can cry on my shoulder  
Baby don't hold back  
You know im not like that

I'll treat you like a queen  
Cause thats what you really are  
you're royalty capturing me

So forgive me if my words are weak  
Im surprised i can even speak  
Yeah

Cause my hand is yours to hold  
When you get lonely  
You can call on me  
I'll be an answer to your prayer

You can cry on my shoulder  
Baby don't hold back  
You know im not like that

Oh, im yours  
I'm yours

all yours

yeah

this much i swear is true  
I'll be by your side  
day to night, from dark to light

cause my love is not a question  
its a motion, a devotion

yeah

Cause my hand is yours to hold  
When you get lonely  
You can call on me  
I'll be an answer to your prayer

You can cry on my shoulder  
Baby don't hold back  
You know im not like that

Cause my hand is yours to hold  
When you get lonely  
You can call on me  
I'll be an answer to your prayer

You can cry on my shoulder  
Baby don't hold back  
You know im not like that

I'm yours...  
All yours
