Oh, oh, yeah, I know you said when I left I'd regret  
every word  
Every breath, every step, every minute without you  
Go, do what you have to

I know I said you were wrong, I'd move on  
It was only a matter of time till I'd make it without you  
This wasn't about you

I said I needed space  
A change of place to go out and live my life

But I don't wanna live without you anymore  
What I wouldn't give to get us back to the way it was  
before  
I admit I was wrong all along, now you're gone  
With all that I'd been living for  
And I don't wanna live without you anymore

For a couple of nights I was fine  
I was high on the wine and the lights  
And my new found freedom that I thought I needed

But that cold lonely room that I headed home to  
It felt like a tomb, I just stared at the ceiling  
What an empty feeling

And baby, I apologize  
Tell me it's not too late, yeah

But I don't wanna live without you anymore  
What I wouldn't give to get us back to the way it was  
before  
I admit I was wrong all along, now you're gone  
With all that I'd been living for  
And I don't wanna live without you anymore

Baby, but I don't wanna live without you anymore  
What I wouldn't give to get us back to the way it was  
before  
I admit I was wrong all along, now you're gone  
With all that I'd been living for

And I don't wanna live without you anymore  
I don't wanna live without you anymore
