the birds they sang at the break of day  
start again I heard them say  
don't dwell on what has passed away  
or what has yet to be

all the wars, they will be fought again  
the holy dove, she will be caught again  
bought , sold and bought again  
the dove is never free

chorus  
ring the bells that still can ring  
forget your perfect offering  
there is a crack, a crack in everything  
that's where the light gets in

we asked for signs the signs were sent  
the birth betrayed, the marriage spent  
the widowhood of every government  
the signs for all to see

I shall run no more with that lawless crowd  
while the killers in high places say their prayers out  
loud  
but they've summoned, they've summoned up a  
thundercloud  
they're gonna hear from me

chorus

you can add up the parts, you won't have the sum  
you can strike up a march, you won't have a drum  
every heart to love shall come  
but like a refugee
