Hush now baby don't you cry  
Rest your wings my butterfly  
Peace will come to you in time  
And I will sing this lullaby

No though I must leave, my child  
But I would stay here by your side  
And if you wake before I'm gone  
Remember this sweet lullaby

And all love through darkness

Don't you ever stop believing  
With love forlorn  
With love you'll find your way  
My love

The world has turned the day to dark  
I leave this night with heavy heart  
When I return to dry your eyes  
I will send this lullaby

Yes I will send this lullaby  
Oooooohhh
