Learn to swear pledge allegiance to the terror within
New America we board the mother ship with our freinds
Parnaoias old, change is just a means to an end
It seems I lost my freedom again, anouther 10
Learn to swear pledge allegiance to the terror within
New America we board the mother ship with our freinds
Parnaoias old, change is just a means to an end
It seems I lost my freedom again, anouther 10
I'm too fast for love, self hatred I lasted drugs
New prescriptions workin fast like I'm a splash a club
Shitten on crews, pissen and puke, sitten on news
My clicks flooded out like wackin hut,Hidden wit kooks
51 stress, William Cooper fell wit no vest
Remember montel when he caught it he contracted Ms
I check for spaceships on dessert sands
Infared controllin the land
I seen them people jump off the builden holdin hands
Erase the program, Fixen the chip, its where you dont
see
Revolution, except for slaves and things we dont need
Turn it off, as usual the medias here
I havent touched my television in years

[Chorus]

Nuclear broadcast, veggin high beams and streched
blazers
Cia reps dressed in black cloaks like Al'Qaeda
Obsesed wit data, steel toe speed and green kackeys
I redeem music when I kill, like scorpio from dirty harry
My dread pops bad pains on airplanes
Whent up your whole block for sparechange
Life in the fast lane
Yo its too trife
Uncle Howie still wit the pipe
Cause if the Suicide bombs on I'm ruin they right
See me? I'm well known for re-inventing the steel
A classic mother fucka I inherit to feel
You fuckin fagget
You stay wit informants to take sausage, You make me
naucious

You ain't gangsta your work is a forrest
A day in the life is just a roll of the dice
Sein shit bugged, like shallow hal rollin on vikes
The worlds burnin kid, Bitches eat out for furnishes
Grand finale, night stalkers set with the pentagram and
turnikids

[Chorus] - repeat 2X

The negative creep, rats in your loss
Splatter your corpse
59 karrots, you clingen from the back of the source
Rhymes of love and hate
My 9 torrid sings when it shakes
Peace to my man germ serve anouther 6 upstate
Keep my cane in the fridge
Any tops rocks in sink
Its the new religion like Hendrix down at rainbow bridge
I bleed the sixth ammendment
I leave ya crippled with the home intendent
Pissen in tombs, payin dues like I'm the bad leutendent
Futuristic drivebys, laser poppin blood on my scope
Alien faze replace the one wit the goat
100 days aside, the red sun be glowin the streets
Hope collapse, rock bottom when the ozone completes

[Chorus] - repeat 2X
