Lately I've been the quiet one
Waiting, searching the lives of the songs you play for
me
Sailing into the misty air, fading bound for I don't know
where
When I'm there, I'll see

And if I walk away, please follow me
If I walk away please follow me

Weightless drifting through stars I got faithless
Woke in the dark and I made this from my dream
Lately all the sweet rhymes recreate me
And now comes the time when I'll need your truth to
see

And if I walk away, please follow me
If I walk away, please follow me

Walk away, let the fear fall away into the fire you made
Scarlet and gold

Walk away, head for the light of day, follow a brighter
way
Out of the cold and dark down to the one bright spark
Futures that all might start someday

So if I walk away, please follow me
If I walk away, please follow me

Fragment shells of long ago, lifetime faces that once
were mine
Throw down by the sea

If I walk away please follow me
If I walk away, would you please follow me
