Your words burn, their melting  
What we have, I'm breaking down  
No reason, No warning  
No love loss, You might as well

Take our pictures off the walls tonight  
I don't wanna see you no more  
I don't wanna feel you no more  
Take out memories, fade out all the sound  
I hope you finally get what you want  
Now you know

I didn't wanna live without ya  
I didn't wanna love without ya  
I used to think I'd die without ya  
Now it's killing me  
And we can be undone

I can't feel without ya  
You know I can't deal without ya  
And now I got a life without ya  
Now it's killing me  
And we can be undone

This constant echoing  
In my head, And I'm spinning round  
You seem so unaffected  
While I go on in this hell

Take our pictures off the walls tonight  
I don't wanna see you no more  
I don't wanna feel you no more  
Take our memories, fade out all the sound  
I hope you finally get what you want  
Now you know

I didn't wanna live without ya  
I didn't wanna love with ya  
I used to think I'd die without ya  
Now it's killing me  
And we can be undone

I can't feel without ya  
You know I can't deal without ya  
And now I got a life without ya  
Now it's killing me  
And we can be undone  
You're talking now  
I don't hear it  
Everything that you say  
I don't hear it  
Gone is the new phrase  
And it's dragging me along to my grave

You're talking now  
I don't hear it  
Everything that you say  
I don't hear it  
Gone is the new phrase  
And it's dragging me along to my grave

I didn't wanna live without ya  
I didn't wanna love with ya  
I used to think I'd die without ya  
Now it's killing me  
And we can be undone

I can't feel without ya  
You know I can't deal without ya  
And now I got a life without ya  
Now it's killing me  
And we can be undone

I didn't wanna live without ya  
(You're talking now, I don't hear it)  
I didn't wanna love with ya  
(Everything that you say, I don't hear it)  
I used to think I'd die without ya  
(Gone is the new phrase)  
Now it's killing me  
(And it's dragging me along to my grave)

I can't feel without ya  
(You're talking now, I don't hear it)  
You know I can't deal without ya  
(Everything that you say, I don't hear it)  
And now I got a life without ya  
(Gone is the new phrase)  
Now it's killing me  
(And it's dragging me along to my grave)  
And we can be undone
