Some people wish they could be like Moses
And get their information from burning bushes
Well, I tried and the neighbors complained
I set their lawns aflame

I'm up and down, I'm going in circles
I'm anxious to know what I mean
The days change like old opinions
And opinions change everything
I am my trampoline

I went abroad to break my concentration
But instead I broke my glasses, lost my voice in
translation
And I talked but I couldn't be heard
I never spoke a word

I'm up and down, I'm going in circles
I'm anxious to know what I mean
The days change like old opinions
And opinions change everything
I am my trampoline

Keep you in the backyard of my
Dreams to remind me of days gone by
Thank you for taking me by surprise
I've never been so high

I'm up and down, I'm going in circles
I'm anxious to know what I mean
The days change like old opinions
And opinions change everything
I am my, am my, am my trampoline
