I, I saw you
I couldn't think of what to say
So, I stumbled to the bar
And I just froze when I saw your face

I didn't know just what to say to you
And didn't know just who to blame
But I didn't want to face the days alone
For the night I didn't get your name

So I, I tried to slow
And whispered softly in your ear
Then I stumbled to your arms
To set the stage for what I feared

I didn't know just what to say to you
And didn't know just who to blame
But I didn't want to face the days alone
For the night I didn't get your name

Fade into my life
Never getting it right
Risky fantasies
Made for what you see inside

I didn't know just what to say to you
And didn't know just who to blame
But I didn't want to face the days alone
For the night I didn't get your name

I didn't know just what to say to you
And you didn't know just who to blame
But I didn't want to face the days alone
For the night I didn't get your name
Get your name, get your name, get your name, oh
yeah
