My love life is in the city
My girl, oh, she's so damn pretty
I didn't know everywhere we go she's unbelievably sexy
Other guys fantasize about this girl of mine but you
know I let em know she's with me
My baby is something (something),
My baby is something good to me,
She be giving me special (special),
She be giving me special company
Oh oh woa woa
Oh oh woa
Moon light loves the shape of her body as shadows
dance on the sheets below me
Flip off the radio
We can take it slow and listen to the sounds of our
heart beat (heart) beat
My baby is something (something),
My baby is something good to me
She be giving me special (special),
She be giving me special company

Oh oh woa woa woa
Oh oh woa
She got style, she got grace
No need for make up on her face
Came as no surprise to me got a great personality
I try to be tough, can't afford to give up because all of
my love just don't seem to be enough
It's a common formality, a contagious technicality
Dman she's so good to me that I find it hard to break
the pieces
Please this ain't the way it seems if you could dance in
my shoes you'll need special company
My baby is something (something),
My baby is something good to me
She be giving me special (special),
She be giving me special company
Oh oh woa woa woa
Oh oh woa
