Incalculably  
We shift in our bones  
At our seams

We're not what we were  
Nor are we what we're going to be  
So where does that leave us right now  
Except gloriously unaware of how this will turn out

I'll be careful with you  
If you leave your light on for me  
My wandering heart  
Is freer in your proximity  
And if you can't rely on me  
Then that makes me exactly half the man  
That I'd like to be

And I don't wanna let you down  
No I don't wanna let you down  
So I'm gonna buy you a house and a dog  
And I'll try to stick around / we're gonna settle down

Sometimes I fear  
We are all but corks on the sea  
Sinking by increments  
Or pulled by invisible tides constantly  
But, if our minds can be made up things  
Then that's what separates us  
From that frightening entropy

And I've tried empathy  
Some crows get the better of me  
With my eyes to the sky  
Sometimes I feel like flying from here  
But I'd walk on broken glass  
Just to hold onto some sense  
Of my own certainty

Hold your moments  
Keep them in your pockets now  
When it's the hours  
That begin to feel like years
