These chords are old but we shake hands Cause I  
believe that they're the good guys We can use all the  
help we can So many minor chords outside I fell in love  
with your sound Oh I love to sing along with you We got  
tunes we kicked around We got a bucket that the tunes  
go through

Babe we both had dry spells Hard times in bad lands  
I'm a good man for ya I'm a good man

Last night there was a horse in the road I was twisting  
in the hairpin My hands held on my mind let go And  
back to you my heart went skipping I found the inside  
of the road Thought about the first time that I met you  
All those glances that we stole Sometimes if you want  
them then you've got to

Babe we both had dry spells Hard times in bad lands  
I'm a good man for ya I'm a good man

They shot a Western south of here They had him  
cornered in a canyon And even his horse had  
disappeared They said it got run down by a bad bad  
man You're not a good shot but I'm worse And there's  
so much where we ain't been yet So swing up on this  
little horse The only thing we'll hit is sunset

Babe we both had dry spells Hard times in bad lands  
I'm a good man for ya I'm a good man
