What's it take to make the dime drop  
All these kids that think that they're quick on the draw  
Always shooting at outlaws  
I'm busy keeping my Colt cocked  
I'm gonna know you when you finally come  
Cause I've got you in my mind's eye  
I've got you in my mind's eye

I'm gonna take up the Steinway  
Waiting for the bullet that I'll never see come  
Gonna start a new way  
I'm putting up with you lightweights  
Calling me out to the middle of the street  
Oh I've got you in my mind's eye  
I've got you in my mind's eye

Oh I've got you in my mind's eye  
My day might be coming but your is coming first  
I'll knock you out of your daylights  
And when you come for me some night  
You'd better bring a shovel  
Be expecting the worse  
Cause I've got you in my mind's eye  
I've got you in my mind's eye  
Oh I've got you in my mind's eye  
I've got you in my mind's eye
