Love ain't on my side love aint special love aint great
Lost in a fog the but I'm inspired to find my way
Where did you go I still curse you to this day
I miss her smile I miss her laughing in my face
Why don't you come round,
Baby I've bean so blue,
And I sleep with the TV on
It's the only sound now love's gone

I will recover I will hear it whisper back
Until then I keep on leg up off the track
Cause he tells you , you are still upon his mind
He'll get around n see you when he finds the time
Why don't you come round,
Baby I've bean so blue, and I sleep with the TV on
It's the only sound now love's gone
When you come round, baby I've been a fool
And I've already waited so long
So long my love has gone

Why don't you come round
Baby I've bean so blue,
And I sleep with the TV on
It's the only sound now love's gone
When you come round, baby I've been a fool
And I've already waited so long
So long my love has gone
