He's riding the plains living up to his name  
As the next to the last true romantic  
He knows that his story is tragic  
But he can't rest  
Til he's next To you

All the girls know his fame the men curse his name  
And they talk about him like he's magic  
But he's the next to the last true romantic  
And he can't rest  
Til he's next To you

He's stolen hearts like they're horses  
And horses when hearts can't be found  
He keeps riding from one horse to one horse to one  
horse towns (It gets him down)

He know's he's a fool to get caught up with you  
But he's the next to the last true romantic  
He can't let go of love once he's had it  
And he can't rest  
Til he's next to you

There's always whiskey and women and women and  
whiskey around  
He can't tell which is worse to be dying of thirst or to  
drown (It gets him down)

So he smiles through the pain he pinch Estelle he  
dance with Jane  
Sometimes even he don't know how he stands it  
But he's the next to the last true romantic  
And he can't rest  
Til he's next  
To you
