I wait for love
I wait for love
Wait for love, wait for love
wait for love, wait for love

I got someone on my mind
And she don't make me wait the way you do
But time oh she loves me all the time
And she don't make me wait the way you do

Wait for love, wait for love, wait for love
Somedays babe we all have to wait for love
Wait for love, wait for love
Somedays babe we all have to wait for love

I got someone on my mind
And she holds me pretty much the way you do
But time oh she holds me all the time
And she don't make me wait the way you do

Wait for love, wait for love
Somedays babe we all have to wait for love
Wait for love, wait for love
Somedays babe we all have to wait for love
