Wake up in the morning I fall back to sleep  
Think I'm gonna stay in bed till tonight  
Lately all I care about is you and me  
Oh oh, and the future didn't look so bright.  
Oh oh, if it's good to gave you in my life.

Coffee and the toss and a pepper in tea  
It's a little too cold, too cold outside,  
Wonder what we up and if you live with me,  
Oh oh, I got the feeling that it turn out past  
Oh oh, if it's good to have you in my life.

All the fishes in the sea,  
Solve the love you and me  
Now the future seem so bright,  
If it's good to have you in my life.

Won't you tell a woman to bring some speed  
I can't wait another minute to see those eyes  
Deadly all I care about is you and me  
Oh, and the future didn't look so pride  
Oh, if it's good to have you in my life

All the fishes in the sea  
Solve the love you and me  
Now the future seem so bright  
If it's good to have you in my life

All the fishes in the sea  
Solve the love you and me  
Now the future seem so bright  
If it's good to have you in my life

It's so good to have you in my life
